the defeat of the spanish armada did not put an end to spanish sea power nor to spain s ambitions in northern europe by the mid 1590s spain had recovered from the disaster of 1588 and the renewed naval wars together with the outbreak of rebellion in ireland from the principal themes of this book r b wernham sets out to examine these major events of the last years of the queen elizabeth s reign and to assess their impact on english policy professor wernham shows how much of the impetus in foreign policy derived from the earl of essex whose personal ambition and practical incompetence brought frustration and danger and ultimately led him through rebellion to the scaffold it was left to mountjoy in ireland to leveson and a new generation of sea commanders and above all to robert cecil to bring war and rebellion to a reasonably satisfactory conclusion the return of the armadas is a superbly integrated and lucidly written study in grand strategy by a leading historian of elizabethan affairs

chronicles events surrounding the 1588 defeat of the spanish armada and explains its effects on european history

in may of 1588 on the order of spain s king philip 30 000 soldiers and sailors armed with arquebus and musket set out to sea there were sixty five galleons and other major ships of war twenty five urcas and many more smaller vessels a larger fleet had never before been assembled in the voyage of the armada david howarth brilliantly conveys the drama of the spanish armada s progress and brings to life the personalities of the men who influenced its course from the dogmatic and irrational philip ii to don juan martinez de recalde a veteran of many sea campaigns to don pedro and don diego de valdes who were cousins but also bitter enemies to the spanish soldiers and sailors who unquestioningly ventured into unknown seas to confront their fates in 1884 almost three hundred years after the armada cesareo fernandez duro a spanish naval captain published one hundred and ninety nine letters and documents of the sixteenth century that he had discovered in the royal archives the general public however remained ignorant of much of this material portraying the events of the armada from the spanish

perspective basing his narrative on previously unexplored spanish sources david howarth shows that there is always another side to every conflict illustrated with lavish maps and portraits of some of the more notable characters involved the voyage of the armada recounts the adventures of these brave men as they go from battles to storms to wrecks and then finally for the lucky ones return home

in the following pages dealing with the most important or most picturesque of the harbours and seaports of the south coast from the north foreland to penzance no attempt has been made either to give guide book information which can be easily obtained elsewhere or to afford technical sailing directions soundings or nautical information of the type to be found in such books as cowper s admirable sailing tours the pilot s guide or in the admiralty charts rather has it been the object of the author to deal with the picturesque side of the various places described and to give something of their story and romance both past and present that the coastline covered by the present volume has much of interest few will deny it is indeed the one which has played the most strenuous and historic part in the history of our island kingdom

collects both american and english children s poetry from 1580 1920

Right here, we have countless ebook **The Return Of The Armadas The Last Years Free** and collections to check out. We additionally meet the expense of variant types and afterward type of the books to browse.
